Professional Summary

A motivated and ambitious final-year Computer Science and Data Science Engineering student with a strong interest in programming, data science, and emerging technologies. Skilled in developing academic projects using C and Python, with a willingness to learn new technologies and solve real-world problems.

Skills

Programming Languages

C
Java
C++
Python
HTML

Databases

MySQL

Soft Skills

Communication, Teamwork, Problem Solving, Time Management

Tools & Platforms

VS Code, Git, GitHub, Eclipse

Education

2025 – 2029	Bachelor of Engineering in Data Science Ballari Institute of Technology and Management CGPA : 9.75/10
2023 – 2025	Pre-University Course (PUC) Patil Women's College CGPA : 9.3/10

Projects

2025 Online Food Ordering System

- Developed a console-based food ordering system using C programming.
- Implemented a menu-driven interface for selecting food items and placing orders.
- Used arrays, functions, loops, and switch-case statements to manage menu items, quantities, and billing.
- Generated the final order summary and calculated the total bill.

2026 Sales Dashboard Analysis

- Developed a Python-based sales analysis system to analyze revenue, costs, and profit.
- Calculated total sales, revenue, and profit using Python programming concepts.
- Implemented a menu-driven interface to display sales and profit information.
- Analyzed sales trends to provide a simple overview of business performance.

2026 Electric Bill Generator

- Developed a C-based electric bill generator to calculate electricity charges based on units consumed.
- Implemented user input, conditional statements, and calculations to generate the electricity bill.
- Calculated the bill amount according to applicable unit-based charges.
- Displayed consumer details, units consumed, and final bill amount clearly.

Awards & Achievements

Academic Excellence

- Maintained a strong academic record with a CGPA of 9.75/10 in B.E. Data Science.

Academic Projects

- Successfully developed multiple academic projects using C and Python.

Technical Experience

- Gained hands-on experience in programming and data analysis through academic projects.

Strengths

- Good in communication
- Emotionally strong
- Interested in learning new things
